Mr. Groh will look into this. – Regarding the Fire Advisory Committee and is the EMS Plan complete? Mrs. Forrester stated that the plan will be ready for review by the BOS on September 3, 2013. – Where is the incident analysis on the fatal fire which occurred in February 2013? Mr. Groh requested that Mrs. Forrester bring this up at the next Fire Advisory Committee meeting. – The Town of Thompson accepted \$70,000.00 from the Water Company to repave the lots area. Why did the town repave the lots area when the Water Company could have done their own paving? - Roger Tremblay is baffled by the problems on Fabyan Road and what is the problem; delegation or money, why is it taking so long to get to these items? Mr. Groh stated that it depends on the issue; sometimes it is money or staff or there are other projects that take priority. He also stated that there are priority lists created that are continually upgraded.
 - Joe Gaucher stated that there are fully loaded dump trucks that go over the Blain Road Bridge and he wanted to know what the loads are for the bridge. Mr. Beausoleil stated that there are no weight restrictions for that bridge.
 - Kevin Walsh asked about the weight limit on the Blain Road Bridge and how can there be no weight restrictions. Mr. Beausoleil commented that the bridge was inspected with no problems found. He also commented that bridges with weight restrictions are bridges with problems found during inspection.
 - Sally White asked why the mowing along the side of the roads is not getting done and she suggested that they hire a contractor to have the mowing done. Has there been a NECCOG meeting? Mr. Groh stated that the July meeting was cancelled. As an FYI, Mr. Groh stated that he is chairing a Paramedic Intercept Service here in town where one Paramedic would be on staff 24 hours here in Thompson who could be called to the scene. They are looking at what they can do to help that service. Study will be completed by September or October of 2013. Ms. White asked Mr. Groh to read the email from Donna Fournier to Representative Rovero aloud which was read by Mrs. Forrester.
 - Alvan Hill commented on the bridge on Wilsonville Road which was repaired and he also stated that a bridge is designed to deflect the motion which is why you feel vibration. Mr. Beausoleil read aloud a letter from the State of Connecticut, Office of Policy and Management, regarding the Town of Thompson's application to replace the Quaddick Road Bridge which was not selected for grant funding through the Small Town Economic Assistance Program (STEAP) for fiscal year 2012-2013. Mr. Groh stated that the BOF took this expense out of the budget when they applied for the state grant and since the grant was denied they would like to put the item back in the budget in the amount of \$80,000.00. He also stated that there is a federal grant that they can apply for and the deadline for that is in 2 days. The Town Planner already did the research on this grant. Mr. Beausoleil and Mrs. Forrester felt that it would be prudent to find out why they were not selected for the state grant before they apply for the federal grant. Mr. Groh agreed and he will look into this. They agreed that they should keep the budget intact as much as they can. The BOS agreed to move forward with the application for the federal grant.
