Department Name	DPW
Asset to be requested	Road Work
Purpose(s) of Asset	Road Resurfacing and Repairs
Location of Asset	DPW
Name of Person requesting	Richard Benoit

	<u>Balance</u> <u>2/5/2021</u>	<u>FY 2022</u>	<u>FY 2023</u>	<u>FY 2024</u>	<u>FY 2025</u>	<u>FY 2026</u>	<u>TOTAL</u>
<b>Amount to be Requested</b>	<b>\$585,534</b>	\$ 500,000	\$ 550,000	\$ 600,000	\$ 650,000	\$ 700,000	\$ 3,585,534

<b>Additional Information</b>	
As planned in FY20 we completed the bulk of our scheduled projects while still keeping enough money on hand to move into the large projects planned for the 2021 construction season.	
This year we intend to reclaim and resurface the 2.64 miles of Quaddick road from RT193 to Quaddick Town Farm Rd.	
Cost estimate for the reclamation and grading is \$77,440 and the estimate for resurfacing with 4" of asphalt is \$627,300	
Total cost estimate for resurfacing Quaddick Rd is \$705,000	
At this time we also have a box culvert replacement project out to bid to replace the narrow crossing of the Wheaton Brook on West Thompson Rd. The current culvert is too narrow to provide safe travel for motorist and/or pedestrians crossing as it creates a bottle neck on West Thompson Rd. The existing culvert does not meet the requirements for storm water flow and will be brought up to standard.	
Cost estimate for this replacement is \$260,000 and is planned for July-August 2021.	
Any remaining funds will cover any guardrail installation/repairs that come up, engineering costs for projects, cold patch for winter months and hot patch for summer, along with asphalt for any pavement repairs we are able to complete.

<b>Amount to be Requested</b>	\$0	\$ 195,647					\$ 195,647

<b>Additional Information</b>	
As requested last year, we are in need of replacing our 2003 Mack CV713 Rolloff truck. The unit is responsible for transporting the majority of waste/recycled items from our Transfer Station to various disposal sites. Our current truck is turning 18 this year and is overdue for replacement based on it's importance of maintaining trash services to the residents of Thompson.	
Last year we were quoted \$28,000 trade in value on our current unit and to date our repair cost's from the last 12 months have surpassed half of that. Current trade value will need to be negotiated closer to the time of purchase as the unit is still in service and will need to be until a replacement arrives.

Purpose(s) of Asset	To assist with road maintenance and snow plowing. Replacing unit #10

<b>Amount to be Requested</b>	\$ -	\$ 202,861					\$ 202,861

<b>Additional Information</b>	
<p>We are in dire need to purchase a new 9 ton truck. At the time of writing this request we have unit 28 at the dealer being repaired. #28 is a 2001 International which we have spent over \$10,000 in repairs in the last 3 months. We have #11 a 2000 International in our shop getting retrofitted with a new flatbed body and a surplus jet sander due to the all season body that was on it failed and was rotten beyond ability to repair. Cost estimate to replace the original body was over \$40,000. Cost to get by with a flatbed will be under \$5,000 and will buy us some time with that unit. Our only spare truck, #10 is a 1994 International and has been taken out of service permanently due multiple safety concerns and a blown radiator which repair is estimated at approx. \$4000 and parts are 5 weeks out, which will be near the end of our winter season. A new truck will replace the #6 truck which is a 2004 International, and #6 will become our spare taking the place of #10.</p> <p>We should be expecting to purchase a new truck every 2 to 3 years respectively, in order to maintain the ability to provide services effectively throughout the year. Aside from the recent replacement of our 3- 1 ton sized trucks, our last 2- 9 tons were purchase in 2018 and 2014. Currently our 9 ton fleet consists of 12 units ranging from 1989-2018.</p>

Request is for costs associated with bridge inspections for the under 20 foot structures (12 total) here in Thompson. Inspections are mandated at the State and Federal level and we are currently 1+ years out of compliance. The last inspections were completed by DOT in 2017 with reports issued in early 2018. Since then, the responsibility of handling inspections of under 20' structures has been left on us. For now the DOT will continue to handle inspections of the 15 over 20' structures.
