SITE WALK NOTES
INLAND WETLANDS COMMISSION
SATURDAY, MAY 10, 2014

The Saturday, May 10, 2014 an Inland Wetlands Commission site walk was performed in the absence of a quorum.

The Inland Wetlands Commission site walk began at 9:10 AM at the driveway entrance to 48 Quinebaug Road (Route 131, Assessor's reference Map 59, Block 88, Lot 11). The purpose of the site walk was to review site conditions in a wetland/watercourse area proposed to be graded for the planting of Christmas trees as identified in pending Application # IWA14002. In attendance were property owner Eric Kapitulik, his son Axel Kapitulik, Michael Bartlet of Hull Forest Products, Commissioners Steve Baranow, H. Charles Obert, and Ron Tillen and myself.

Beginning at the driveway entrance the group drove down the driveway to where a new home was being built and then walked southwest into and through the proposed grading area where an area of pooled water was observed containing some tadpoles and egg masses of amphibians. The meeting ended at 10:37 AM and the group disbanded independently walking back to their parked vehicles.

Respectfully Submitted,

Marla Butts
Wetlands Agent
